## IPB ICM project:

### *What for?*

The major aim of the IPB's International Credit Mobility (ICM) project is:

- a) to promote student mobility for **double diploma**;
- b) to promote **staff development** on the European HE best-practices;
- c) to improve partner HEIs' **international relations capacities**.

*How?*

*What have we learned from the Erasmus mobility and the ECTS?*

***The golden rule of recognition of credit mobility:***

*All credits gained during the period of study abroad should be **transferred** and counted towards the student's degree without any additional work by or assessment of the student.*

*The ECTS User's Guide*

***Transfer of credits** is the process of having credits awarded in **one context** (programme, institution) **recognised** in **another context** for the purpose of obtaining a qualification.*

*Credits awarded to students in **one programme** may be **transferred** from **an institution** to be **accumulated** in **another programme** offered by **another institution**.*

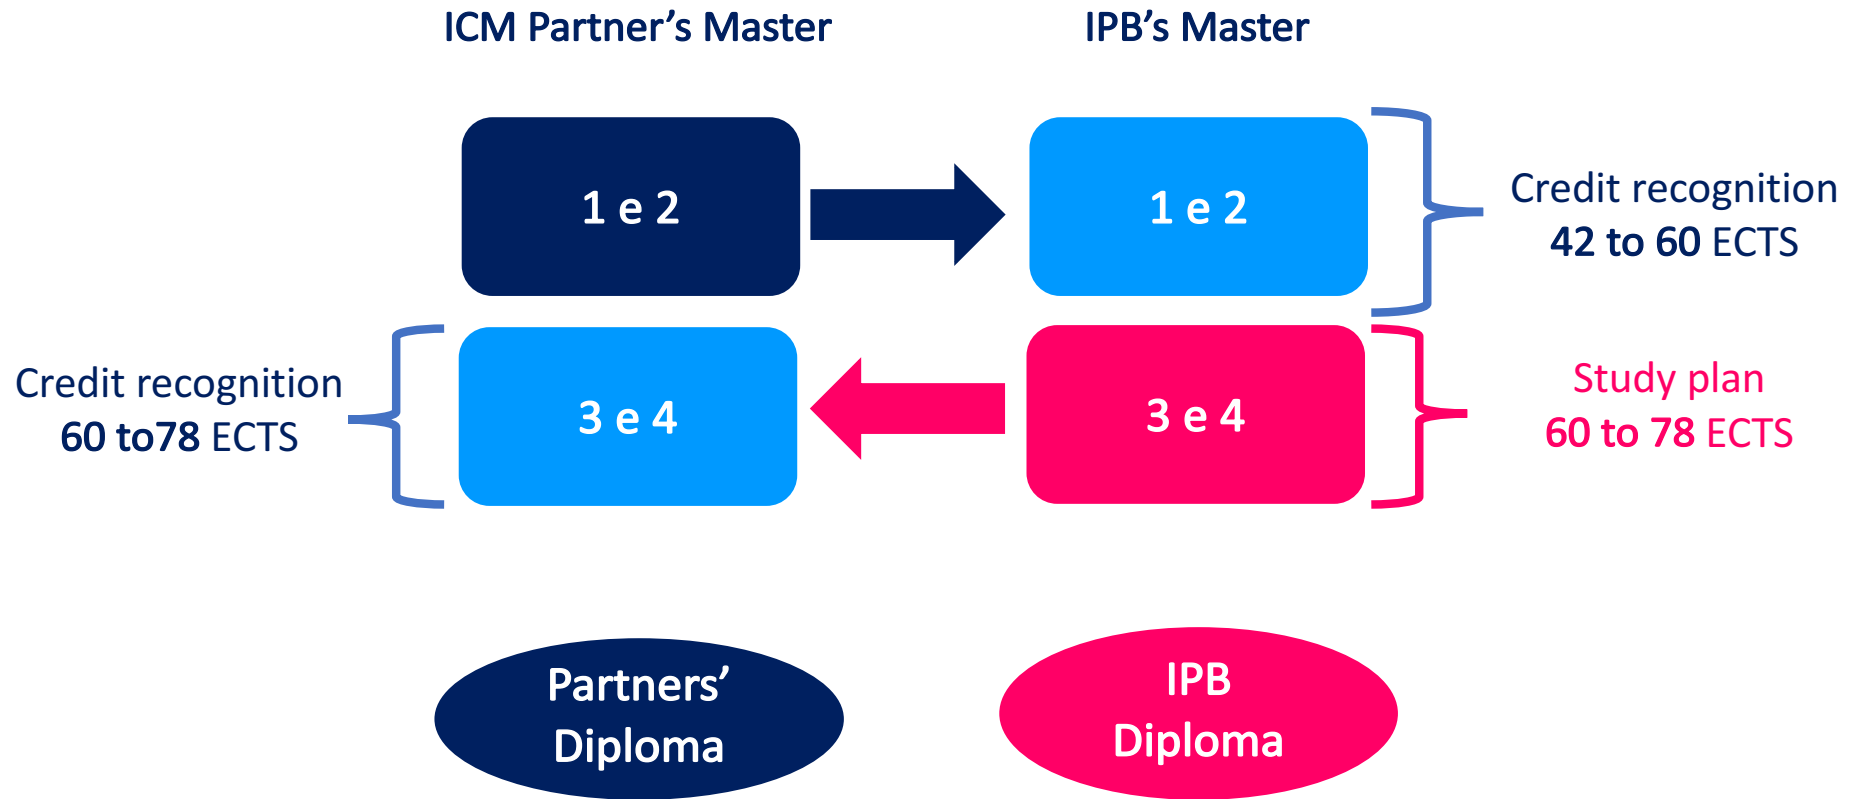

*The ECTS User's Guide*

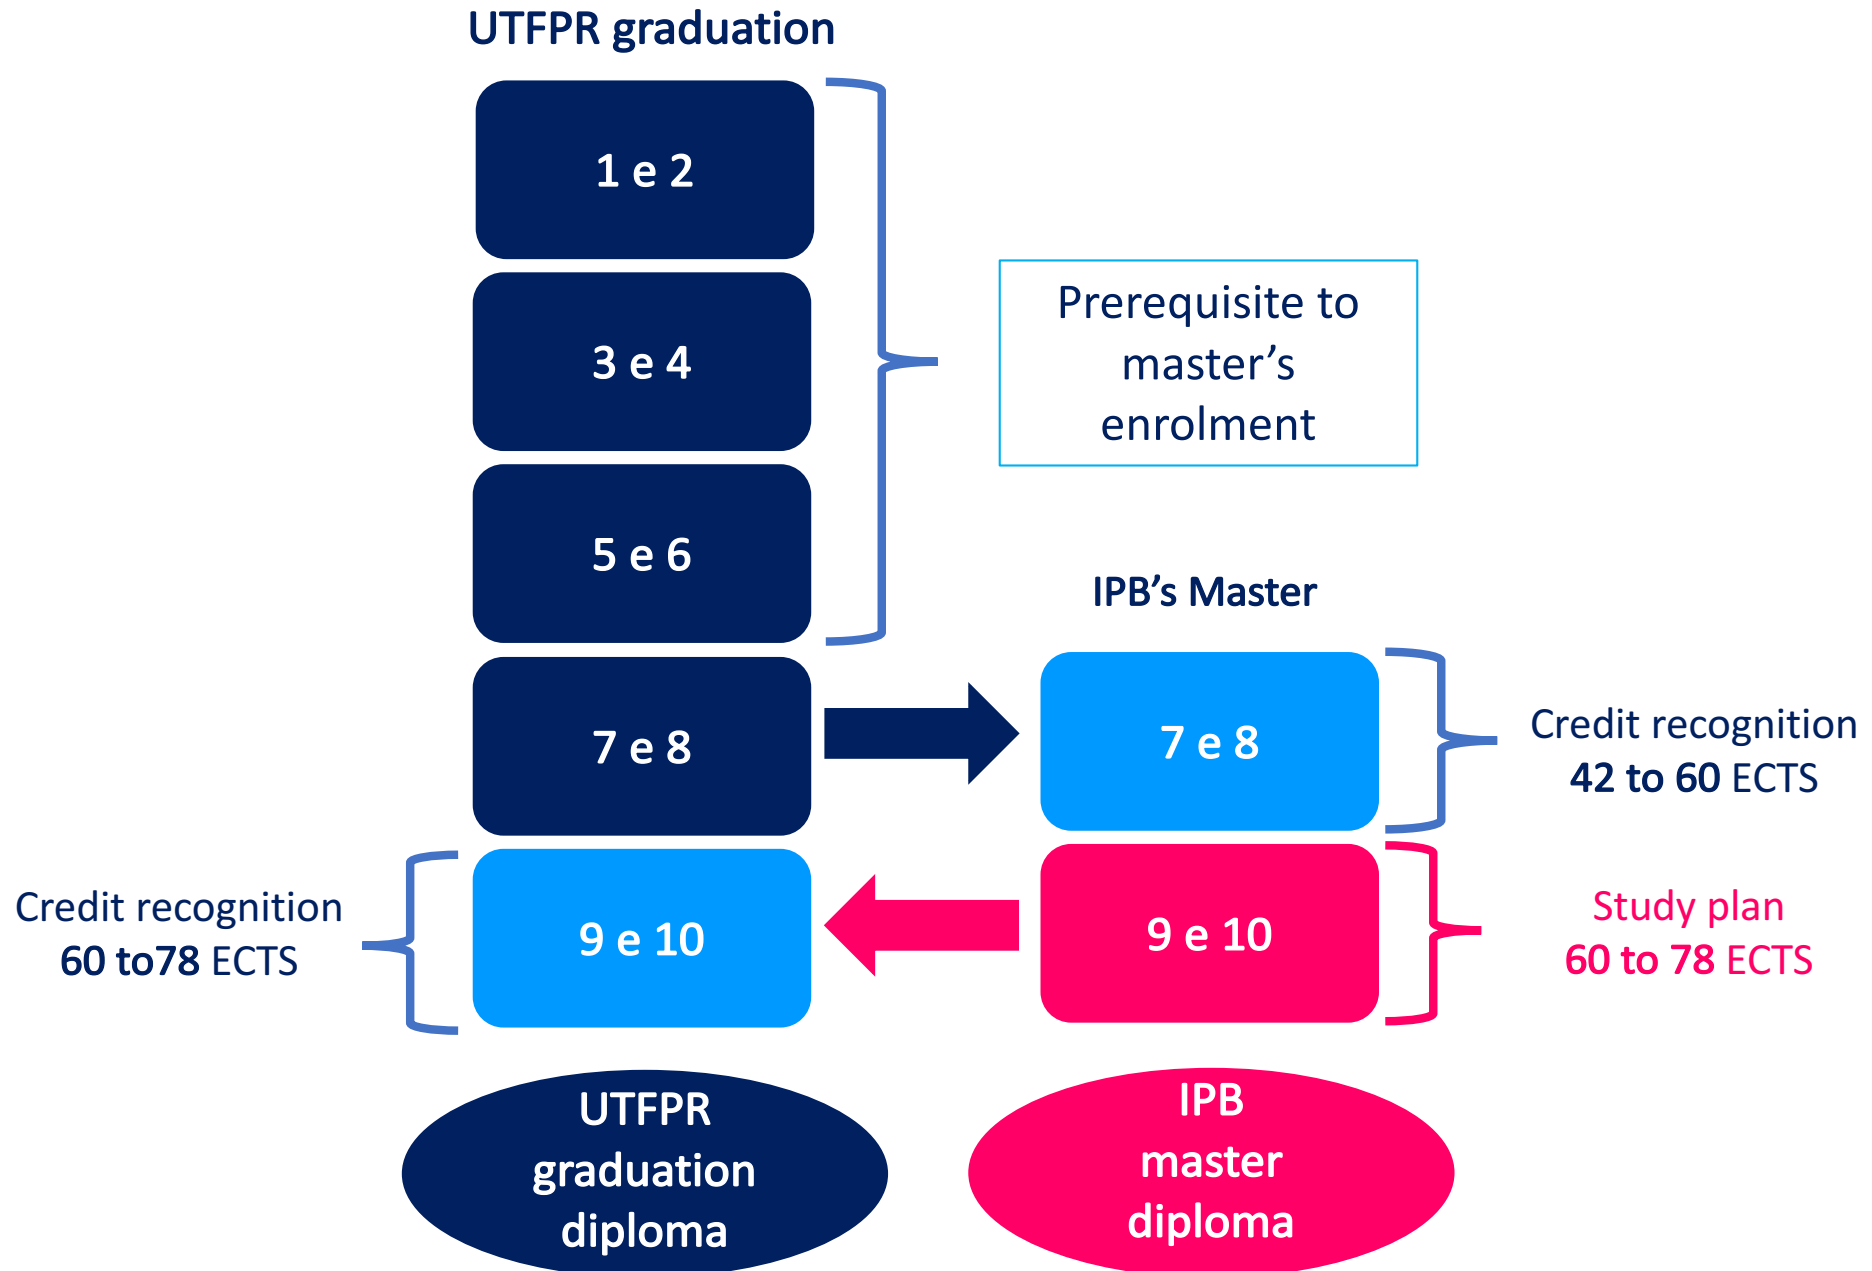

*In what have we innovated?*

*How to get fruitful cross-institutional  
academic and research outputs?*

- a) Double diploma (*sharing students and teachers*)
- b) Co-supervision (*sharing researchers*)
- c) Fitting (current) & tracing (new) research interests and ideas

## *How can we know if we are going the right way?*
